DETAILED ACTION

Claims 1-17 and 35-62 are cancelled by Applicant.

Election/Restrictions

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 18-34, 63-64, drawn to a Process of TV signal for dynamic reproducing, Fast, slow or stop reproducing, classified in class 386, subclass 68.
- II. Claims 65-84, drawn to video segment editing or sequencing with storage control, classified in class 715, subclass 530 or 723.

The inventions are distinct, each from the other because of the following reasons:

Inventions of Group I and II are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In the instant case the different inventions of

Group I draw to a process for dynamic reproducing of video segments with trick play functions in a video reproducing device, wherein the video segments need not to be categorize according to subject matter.

Art Unit: 2611

Group II requires segments of video need to be categorized according to subject matter by determining the degree of similarity between subject matter content between segments for video segment editing or sequencing.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
